Slow Food is an accomplished community employing good, clean and fair food to better the world.

## CHILDREN & FOOD

We grow the next generation of kids who run towards the

good food because they grow it in school gardens.

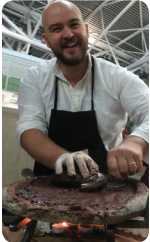

## BIODIVERSITY

We add value to local economies and promote food sovereignty by identifying

and protecting food and traditions at risk of extinction via the Slow Food Ark of Taste and Presidia.

## EDUCATION

We inspire and teach people how to grow, prepare and share good food. These are the first steps towards growing

community and reconnecting people to place, individual choices to broader food systems.

## TERRA MADRE

We gather in Italy every year with 10,000 local food producers from 150 countries as

a global food community. Terra Madre is a global moment to learn, share and grow a new world within the shell of the old. It has also inspired other global gatherings, like Slow Meat, Slow Fish, and the Indigenous Terra Madre.

Tear along the dotted line and use the bookmark for your favorite cookbook.

🌀 We are a grassroots membership organization devoted to inspiring individuals and communities who together change the world through food that is good, clean and fair for all.

🌀 We are part of the global Slow Food network of over 150,000 members in more than 150 countries. We gather around the table to connect with one another – and the Earth.

🌀 While you don't have to be a Slow Food member to live the Slow life, we want you as a member. There are 500k people follow our social media steams online, but isn't it better to be a food system leader? Our members are food system leaders. We need you.
